Project site: an operating metallurgical site in north-west Russia.

Item summary: $S = 8 \text{ m}^2 \times 2$, chamber depth 50 mm, parallel operation; specific load 145.3 kg/(m²·h). Technical requirements are given in Annex 1 to this request.

Please include in your quotation:

1. budget price quoted separately on EXW (manufacturer's works) and DDP project site, north-west Russia (Incoterms 2020), stating the currency and the validity period of the offer;
2. manufacturing lead time and estimated delivery time (weeks from the date of order / advance payment);
3. overall dimensions and weights of a unit and of the largest shipping blocks (for the logistics study);
4. reference list of similar supplies: product, process duty and parameters, year of supply, country;
5. materials of the parts in contact with the process medium, and the scope of supply (instrumentation, spare parts, documentation);
6. utility consumption and installation requirements (if available).

This is a budgetary enquiry at the Basic Engineering (FEED) stage: it does not constitute an offer and creates no obligations for either party; detailed technical data sheets will be issued at the next project stage.
